Bar Code ID Solutions

PDC Healthcare developed the first Bar Code Wristband System in 1984. Today, more hospitals choose our Bar Code Wristbands than any other system in the world. Before choosing a system, consider PDC Healthcare's experience, expertise, and proven advantages. We offer the highest quality, most reliable Bar Code ID Solutions in healthcare today that meet important patient safety regulatory requirements, as listed below.

Choose from the following products:

- Thermal Printer Wristbands & Tags print in mere seconds through direct thermal printers.

- Laser Printer Wristbands & Labels provide excellent printability and scannability, while protecting printed information from smearing or bleeding.

- Insert Style Wristbands feature convenient pockets to protect patient data.

Our Bar Code ID Solutions provide medical-grade quality for maximum durability, safety, and security.

Bar Code ID Solutions help healthcare organizations meet applicable patient safety regulatory guidelines, including:

- **The Joint Commission National Patient Safety Goals:** Identify Patients Correctly, Improve Staff Communication, Use Medicines Safely, Prevent Infection, Identify Patient Safety Risks, and Prevent Mistakes in Surgery.

- **Centers for Medicare & Medicaid Services (CMS):** Stage 2 meaningful use requirements to use assistive technologies with eMAR.

- **Health Insurance Portability and Accountability Act (HIPAA):** to protect patients' medical records and other health information.

- **American Health Association (AHA):** to prevent the chance of lost or transferred data.

- **Five Rights of Patient Safety:** to ensure right patient, medication, dose, time, and method.

Conf-ID-ent™ Newborn Identification Tags

Conf-ID-ent™ newborn identification tags are ideal for bar coding your smallest patients. Their unique dual-sided design and adhesive-free strap features a flat surface that provides ease of scanning in any position without disturbing the patient. Conf-ID-ent™ Newborn Identification Tags feature super soft materials, making them gentle on your most sensitive patients' skin.

- Dual-sided for ease of scanning
- Adhesive-free strap allows scanning in any position, without disturbing the patient
- Rounded corners make it soft and gentle on sensitive patients' skin

- Lightweight and comfortable design
- Non-removable liner provides excellent durability
- Supports text, bar codes and photos
- Excellent first-time scan grades
- Direct thermal

Maximum Comfort Meets Maximum Performance

For Alert Snap options, see pages 59–60.

Our new ComfortBand™ is specially designed for patients with delicate skin. It provides superior comfort with softer material and a contoured shape. ComfortBand™ is available in multiple sizes to meet the needs of the entire patient population, from geriatrics to infants.

ComfortBand™ Features:
- Softer material is comfortable for even the most delicate skin
- Antimicrobial additive protects wristband surface against tested non–pathogenic bacteria*
- Tamperproof double–post snap closure for security (Adult includes double–post snaps; Infants include single–post heart–shaped snaps.)
- Contour–shaped band comfortably conforms to the wrist
- Large information area

ComfortBand™ Performance:
- Patented PermaPrint® surface provides best imprint quality, maximum resistance to solvents, and seamless printing
- Supports text, linear and 2D bar codes, photo ID and graphics
- Ensures crisp, clear bar codes for easy scannability
- Compatible with most direct thermal printers

ComfortBand™ Adult Thermal Wristbands

All Bar Code Wristbands comply with The Joint Commission National Patient Safety Goals, Centers for Medicare & Medicaid Services (CMS), Health Insurance Portability and Accountability (HIPAA), and American Hospital Association (AHA) industry standards.

*PDC Healthcare ComfortBand™ Wristbands eliminate more than 99% of non–pathogenic bacteria within 24 hours, based on independent laboratory testing.

ALL WRISTBANDS ARE LATEX & PHTHALATE–FREE.

Exclusively approved and specially designed for use with the Epson SecurColor™ printer

Inkjet Wristband Features:

- Preferred wristband media for the Epson SecurColor™ inkjet color printers
- Extensively tested and verified for compatibility and consistent performance
- Available in snap and adhesive closure options
- Print patient identification information with bar codes, alerts, photo, and graphics directly on the wristband using the Epson SecurColor™ color printer

- Extra smooth, soft material is ideal for patients with sensitive skin
- Latex-free, Phthalate-free, and PVC-free for patient safety
- Wristbands are 100% recyclable to minimize environmental impact
- Print more than 1,500 wristbands using only a single ink cartridge

Inkjet Wristband with Adhesive Closure

- Adhesive closure allows you to print entire length of the band.
- Can be used with foil tamper-evident label which leaves behind the words "VOID" when removed. (Army Branch shown at right. Also available with Navy, Air Force, Marines, Coast Guard Insignias and Blank.)

Tamper-evident labels with branch insignia.

Shows "VOID" once label is removed.

See below for tamper-evident labels.

ClarID™ Color Laser Wristbands – Specially designed for VA Hospitals to print color laser patient ID wristbands on demand.

PDC Healthcare introduces ClarID™ color laser patient ID wristbands which print on-demand using a color laser printer to print patient photos, color code alerts, bar codes, and text directly onto the wristband. This maximizes patient safety by providing bar code automated identification and supporting color code standardization initiatives.

If you're already using a comparable laser printable ID product, you can seamlessly switch to ClarID™ without IT reformatting..

ClarID™ Wristband with Adhesive Closure

- Scans first time, every time
- Jam-Free™ printing!
- Quick and easy application streamlines the admission process
- Tamper-evident adhesive closure prevents transfer from one patient to another
- Optional single post snap closure can be ordered separately to provide an extra measure of security
- Extra smooth, soft material and contoured edges for patient comfort. Latex-free & Phthalate-free

- Tested and verified by the VA hospital in Washington, DC, ClarID™ lasts up to a month, withstanding moisture, alcohol, and hand sanitizer to preserve patient data and bar codes
- Use Ident-Alert® color coded alert snaps for special precautions (sold separately). Ideal when new alerts are identified to prevent re-banding a patient
- Can be used with foil tamper-evident branch insignia label which leaves behind the words "VOID" when removed. (Army Branch shown below. Also available with Navy, Air Force, Marines and Coast Guard Insignias.)

Introducing DuraSoft®

Inspired Softness.

Discover DuraSoft®, a softer laser ID solution inspired by customer demand for a lightweight laser wristband that's more comfortable for patients and soft enough for even the most delicate skin.

Practical Convenience.

Without a stiff, cumbersome laminate overlay, applying DuraSoft® to patients is fast and easy, allowing caregivers more time for patient care. DuraSoft® streamlines steps in the admissions process to reduce wait time and increase workflow efficiency. And because it's paper-based, DuraSoft® performs like a saint in virtually any laser printer.

DuraSoft® Laser Patient ID System: Easy as 1-2-3

1. Print

Easy drop-in replacement works with your existing laser printer and format so there's little to no change needed. Jam Free™ printing in virtually any laser printer.

2. Remove

+ No laminate shields to fold and stick
No assembly needed

= Quick & Easy

3. Apply

Fast and easy application saves nursing and admission staff time to improve workflow efficiency and allow more time for patient care.

Meet Stage 2 Meaningful Use Requirements with eMAR*

Using DuraSoft® as part of your electronic medication administration record (eMAR) system can help you meet meaningful use requirements established by the Centers of Medicare & Medicaid Services (CMS) for Electronic Tracking of Medications.

*To meet CMS Stage 2 Meaningful Use requirements, hospitals must automatically track more than 10 percent of medication orders using assistive technologies, such as bar code or RFID, with an electronic medication administration record (eMAR). Failure to meet regulations can result in significant incentive payment penalties in fiscal year 2015.

PDC Healthcare DuraSoft® Wristbands eliminate more than 99% of non-pathogenic bacteria within 24 hours, based on independent laboratory testing.

DuraSoft® Features.

- Ultra soft and smooth wristband material provides patient comfort and durability for up to 15 days
- Quick and easy application saves nursing and admission staff time to improve workflow efficiencies
- Easy drop-in replacement works with your existing laser printer system and format so there's little to no change required.
- Secure, tamper-evident adhesive closure
- Patented design featuring unique cross-cuts provides additional options:
  - Optional color-coded alert snaps to identify special-risk patients (See page 59)
  - Optional plastic snap closure for additional security (See page 60)
- Antimicrobial additive protects wristband surface against tested non-pathogenic bacteria*
- Superior Bar Code Scanning. Excellent scan rates for linear and 2D bar codes
- Moisture-resistant. Specially designed material resists moisture, alcohol, and hand sanitizer to preserve patient data and bar codes. Latex-free and Phthalate-free.
- Jam Free™ printing with laser printers
- Standard file holes make it easy to add the laser sheet to a chart or binder

DataMate® Laser Printer Wristbands and Labels

The DataMate® system consists of a laser-printable wristband with adhesive closure and labels that adhere to patient records. The wristband's clear, fold-over protective window is designed to prevent printed information from smearing and bleeding to assure error-free reading/scanning. Single-piece construction allows you to print wristbands and labels from the same laser tray.

DataMate® Laser Wristband and Labels

- Wristband's clear, fold-over protective window is designed to protect information from smearing and bleeding
- Accepts linear and 2D bar codes
- One wristband designed for adults with additional labels for duplicating patient information
- Available with tamper-Kimevident slits to promote patient safety

For a complete selection of wristbands & labels, visit us online at www.pdchealthcare.com.
