Mother-Infant Wristbands

L&D and NICU departments face the daily challenge of caring for the most valuable and fragile patients. To ensure that every newborn is properly identified and matched to their mother, hospitals place their trust in PDC Healthcare's line of Mother-Infant Identification Wristbands.

Wristbands are available in two-part, three-part, and four-part designs. Choose from Insert Style (with protective pockets for insert cards) or Imprinter Style (for printing and writing directly on the wristband). Wristbands feature smooth, soft material, which is comfortable and safe for sensitive skin. They can be ordered with the following closure options: non-transferable SecurSnap®, adhesive, or readjustable.

Precision® Neonatal Wristbands meet the needs of patients in the Labor & Delivery and NICU Departments. PDC Healthcare's new Bundle of Joy™ Wristbands proudly show family members' relation to their newest addition.

Mother-Infant Wristbands provide medical-grade quality for maximum durability, safety, and security.

Mother-Infant Wristbands help healthcare organizations meet applicable patient safety regulatory guidelines, including:

- **The Joint Commission National Patient Safety Goals:** Identify Patients Correctly, Improve Staff Communication, Use Medicines Safely, Prevent Infection, Identify Patient Safety Risks, and Prevent Mistakes in Surgery.

- **Health Insurance Portability and Accountability Act (HIPAA):** to protect patients' medical records and other health information.

- **American Health Association (AHA):** to prevent the chance of lost or transferred data.

- **Five Rights of Patient Safety:** to ensure right patient, medication, dose, time, and method.
Table of Contents

TenderCare™ Thermal Newborn ID System

- Exclusive, patent–pending 4-part wristband system positively identifies baby with mother and father or designated family member
- Patented PermaPrint® surface provides best imprint quality, maximum resistance to solvents, and seamless printing

Consecutive Numbering

Mother–Father–Baby (OB) Bands
Consecutive numbering is available in seven formats below. All bands within each set are imprinted with identical numbers. Numbers must appear next to the clip seal.

1. Four digits (0001 to 9999)*
2. Five digits (00001 to 99999)*
3. Six digits (000001 to 999999)*
4. Alpha followed by five digits (A00001 to Z99999)
5. Digit, alpha, four digits (0A0001 to 9Z9999)
6. Double alpha followed by four digits (AA0001 to ZZ9999)
7. Single alpha followed by four digits (A0001 to Z9999)

*The leading zeros can be suppressed if desired.

Precision® Neonatal Wristbands

The Precision® Neonatal Wristband helps meet the special needs of patients in the Labor & Delivery and NICU Departments. Available in two sizes, this movable ID band offers newborns and preemies the highest quality, convenience, and comfort.

- Constructed of soft, comfortable foam
- Secures with hook & loop Velcro® style closure
- No cutting necessary
- Blank ID panel accepts handwritten information or label (up to) 2-5/8"
- Easily repositioned on wrist or ankle to accommodate IV site changes
- Ensures ID band is present on limb instead of taped to incubator, guaranteeing positive patient identification
