Multi-Purpose Labels

PDC Healthcare offers a wide array of Laser Sheet Labels, Label & Tape Dispensers, Thermal Transfer Labels & Ribbons, and other multi-purpose labeling solutions to meet the needs of virtually any application.

Choose from a large selection of labeling products and ribbons that are fully compatible with your facility's existing printer system. Please use our cross-reference guides to match the right ribbon to the right application, based on your facility's printer model and label size.

If you cannot find stock labels that match your specific requirements, PDC Healthcare can customize any Laser Sheet Label, Dot Matrix Label, Direct Thermal Label or Thermal Transfer Label at an affordable price. PDC Healthcare can also custom design a label solution for your specialized software system or application.

Multi-Purpose Labels help healthcare organizations meet applicable patient safety regulatory guidelines, including:

- **The Joint Commission National Patient Safety Goals:** Identify Patients Correctly, Improve Staff Communication, Use Medicines Safely, Prevent Infection, Identify Patient Safety Risks, and Prevent Mistakes in Surgery.

Thermal Cleaning Card

Thermal Printer Cleaning Card Series 212
4" x 6" (101,6mm x 152,4mm)

This Thermal Printer Cleaning Card utilizes a soft fabric embedded into a plastic core to create a presaturated disposable product. This cleaning card will safely and effectively remove all dirt, ink, tape and adhesive residue, and other contamination from thermal print heads, paper guides and paper paths. This product will improve printer quality and legibility. It will also increase output, print head life, printer reliability and performance.

Use On:
- Portable Hand-Held Thermal Printers
- Label Printers
- Direct/Transfer Thermal Printers
- Airline Ticket-Bag Tag (ATB) Printers
- Barcode Printers
- Receipt Printers

- Cleans built up dirt, adhesive and other debris
- An unclean printhead will lead to label jamming and printing void (blank printing area or line)
- Easy to use, prevents maintenance and replacement costs

What is the Thermal Transfer Advantage?

- The printed image is much more durable
- You will use lower energy settings on your equipment
- You can choose from a variety of colors
- All thermal transfer printing is IR scannable

PDC Healthcare offers different ribbon formulations to ensure that you have the best price/performance solution for every label application. Throughout the catalog there are a wide selection of pre-determined ribbon/label combinations to choose from. Below are a few additional guidelines to follow when matching the right ribbon for the right application.

Wax Ribbon Formulations

Our wax ribbons are well-suited for basic general purpose applications throughout your facility. These formulations work well with a variety of paper stocks and promote higher productivity.

- They are more cost effective
- Require a lower melting temperature
- Are well suited for shelf and bin labeling

Wax/Resin Ribbon Formulations

Premium wax/resin ribbons are well-suited for the demanding printing results needed in the Admissions, Laboratory and Pharmacy departments. These formulations are abrasion and solvent resistant, providing exceptional performance. They work well with a variety of paper stocks, including a variety of synthetics, and promote high-resolution printing.

- Moderately priced
- Perform well on moderate heat and stream applications
- Have excellent print quality for applications with longevity standard

Premium Resin

Our premium resin ribbons are well-suited for use with labels that are exposed to challenging applications such as heat, reagents and solvents. These well-rounded formulations perform under the difficult environments of your Laboratory, Pharmacy and Blood Bank.

- They are priced for performance
- Work best on the smooth surface of a synthetic stock
- Have excellent print quality for applications with longevity standards
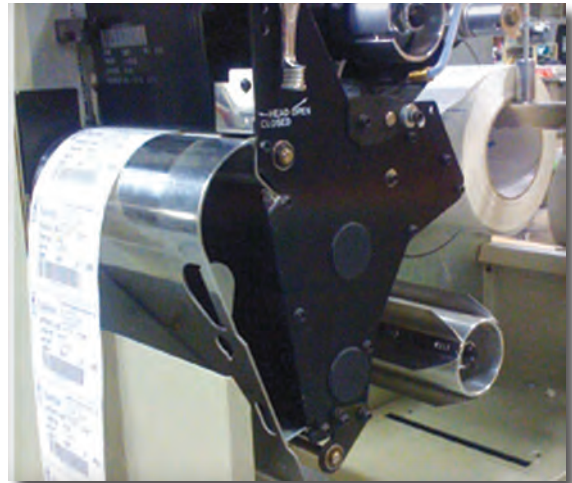

MULTI-PURPOSE

PDC Healthcare offers a variety of ribbon formulations to ensure optimal performance from your thermal printer, label stock and label applications. Listed below are our most popular ribbons based on the printer model and label size. PDC Healthcare offers a vast selection of additional ribbons. For the printers listed below and more, please contact your PDC Healthcare Sales Representative at (800) 435–4242 or visit www.pdchealthcare.com to match a ribbon to your label stock and thermal printer.

Calculating the Number of Ribbons Needed for a Label Order:

Formula:
Vertical Length of label + distance between labels (usually 1/8") x quantity of labels / 12" (to get ft.) / by length of ribbon (in ft.) = number of ribbons.

Example:
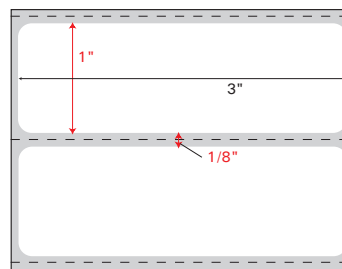

Calculate number of ribbons needed for 50,000 labels, 3" x 1" label with 1/8" between the labels. Ribbon size of 3-1/2" x 1,476'

SAMPLE DATA			
		1"	Label Length
	+	.125"	Between Labels
	=	**1.125"**	**TOTAL Length**
	x	50,000	Number of Labels
	=	**56,250"**	**TOTAL in Inches**
	÷	12	Divided by 12 to get feet
	=	**4,688'**	**TOTAL in Feet**
	÷	1,476'	Divided by length of ribbon
	=	**3.18 or 4**	**TOTAL # of Ribbons Needed (round up)**

Thermal Transfer Ribbon Storage Conditions
For optimal print results, thermal transfer printing should occur in the temperature range of 41°F to 95°F at 45% to 85% relative humidity. Suggested storage conditions for up to one year duration are 23°F to 104°F at 20% to 85% relative humidity. Exposing thermal transfer ribbons to direct sunlight or moisture will cause damage to the ribbons.

Multi-Purpose Thermal Transfer Label Solutions

These high-quality paper labels are ideal for many bar code labeling applications in your Healthcare facility. They are comprised of a white ultra smooth, absorbent paper facestock excellent for use in standard and high-speed thermal transfer printers. They feature superior printability and produce crisp bar codes and text. The adhesive can be applied to most surfaces and the label material is highly recommended for use when longevity is a requirement.

Ribbon Recommendation: A wax or resin enhanced wax ribbon is recommended for optimal print performance and results for paper labels. These ribbons and labels are well suited for basic general purpose applications. Resin ribbon is recommended for film labels where extra durability is needed.
