BAND TOGETHER

Choose the patient ID wristband that's a perfect fit for the whole value analysis team.

DOES YOUR CURRENT WRISTBAND TRULY MEET THE NEEDS OF YOUR ENTIRE ORGANIZATION?

EVERY PATIENT, PROCEDURE, AND DEPARTMENT RELY UPON YOUR HOSPITAL'S WRISTBAND. CHOOSING THE RIGHT ONE MATTERS AND WILL HELP YOU:

Reduce Patient ID Errors

Improve Workflow Efficiency

Increase Patient Care Time & Staff Satisfaction

Increase Patient Safety & Satisfaction

Reduce Costs

Improve Contract Compliance

The PDC patient identification portfolio offers the perfect fit for everyone within an acute or non-acute care facility.

For more than 65 years, PDC has been the patient identification expert. Choose PDC as your partner, and help everyone in your organization band together.

THE PERFECT FIT FOR YOUR ENTIRE ORGANIZATION.

- » Provides value-driven solutions for greater cost-savings and contract compliance
- » Dependable identification for patient safety and satisfaction
- » Reliable and easy for clinicians to use

HIGH QUALITY. HIGH PERFORMANCE.

- » Material science meets intelligent design to maximize print durability, patient comfort, and performance
- » Withstands water and common hospital solvents
- » Superior scanning
- » Latex-free, phthalate-free

CONVENIENCE. COMPATIBILITY.

- » Direct drop-in replacement formats require minimal IT support
- » Compatible with all leading printers

DIRECT THERMAL WRISTBANDS

Fast and cost-effective printing with crisp, accurate barcodes every time. Compatible with leading direct thermal printers. Help reduce waste and optimize efficiency. Multiple closure options available to meet your organization's needs.

ScanBand® DR Patient Safety That Lasts

Longest-lasting thermal wristband

Advanced material engineered to deliver superior print performance, barcode scanability, and reliability

Quick and easy printing and application

Economical and efficient

Secure, quick-tab adhesive closure

DIRECT THERMAL WRISTBANDS

ScanBand® Patient ID Wristband Carriers

Easy Drop-In Loading
into the Certis® C1-30

ScanBand® DR and ScanBand® Soft wristbands now come in a convenient wristband carrier for easy drop-in loading in the Certis® C1-30 Thermal Patient ID Printers

Drop the carrier into the printer and it auto-calibrates the settings for efficient changeovers and mistake-proof loading

More wristbands on each roll for fewer changeovers

Open-faced carrier design allows visibility to wristband usage and an easy fix if a jam occurs

LASER WRISTBANDS

Convenient combination of patient ID wristband and labels in one easy-to-use solution. Compatible with all laser printers and available in multiple drop-in formats for simple setup and printing. Unique materials protect patient information and provide superior print quality and durability.

DuraProtect® Superior Protection, Simplified Process

Laminate shield ensures around the clock protection and prevents fading, smearing, and smudging

Unique peel off design eliminates complicated assembly and provides easier caregiver application

Soft film material improves patient comfort

DuraProtect® TenderCare®

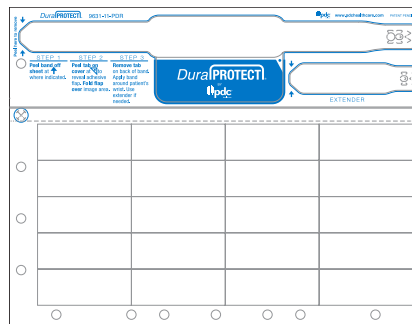

Mother/Father/Baby style helps ensure every newborn is properly identified and matched to their parent(s)

Thermal Printers

Patient ID Wristband and Label Printing

DESIGNED FOR HEALTHCARE TO WORK AS HARD AS YOU DO

Available in both desktop and mobile styles

Seamless EMR integration with Epic, Cerner, MediTech, and more

Reliable performance validated by thousands of hours of testing

Industry's most competitive printer warranties at up to 3 years

Code® Barcode Readers

Barcode Scanning for Increased Patient Safety

SCANNERS WON'T SLOW WORKFLOWS

Save critical seconds by reading any barcode, in any condition on virtually anything

Disinfectant-ready CodeShield® plastics outlast “antibacterial plastics” by withstanding routine sanitation and healthcare-grade cleaners — devices won't yellow, crack or fail prematurely

Remote firmware updates keep devices current — greater convenience, greater value

Mission-critical barcode readers are ready to ship — stop waiting, start scanning
