

# SECURITY ID SOLUTIONS

Create a Safer Hospital Campus

TEMPBADGE® EXPIRING  
VISITOR BADGE

# IMPROVE SAFETY & COMPLIANCE

Visitor and employee identification are vital to the safety of all people within a healthcare facility. Improve security and peace of mind through positive identification, knowing who is allowed to be onsite with just a glance. Identifying all people within a hospital helps create a secure environment for staff to care for patients and a comforting environment for patients and their loved ones.

PDC provides a full range of visitor and employee ID solutions to help:

- |   |  |
|---|--|
|  Increase Security                               |  Increase Staff Productivity          |
|  Provide Peace of Mind                          |  Clearly Identify Clinicians         |
|  Meet Joint Commission Standards (EC.02.01.01) |  Control Access to Restricted Areas |
|  Integrate Watch Lists                         |  Drive Positive Reviews             |

## WHY CHOOSE PDC

With over 65 years of experience, our visitor badges, employee credentials, software, ID accessories and printers provide a convenient and customizable safeguard for your people and property. Our solutions enable you to communicate and record who is on your premises while also providing a professional, pleasing experience for those in your hospital. Plus, all products are easy to order and easy to print for hassle-free identification.

## TEMPBADGE® ONE-STEP® VISITOR BADGES

Quick & Easy Badges with an Adhesive Backing

Dimensions: 2 5/8" x 2 13/16" 02050

**SINGLE-PIECE** Simply fold the large tab to activate

**EASY-TO-APPLY** The adhesive back makes it easy to attach this badge to the wearer — no clips required

**EXPIRING** After a full-day's use, a large "VOID" will appear on the badge, clearly indicating a guest's time is up and preventing badge reuse

**THERMAL PRINTABLE** Quickly add a guest's name, the date and other important information

**CUSTOMIZABLE**  
Add your logo to your badges

## TEMPBADGE® TWO-STEP® VISITOR BADGES

Clip-On Style Badges with Mix & Match Versatility

Badge back and front

**COLOR-CODE** Identify visitor categories or match the color to your brand

**DESIGNATION** Choose from "Visitor," "Contractor," "Vendor" and "Temporary" titles

**CONVENIENT** Slotted to attach a badge reel, lanyard or clip for easy and accessible scanning; use of the back piece allows for easier cleanup

**ACCESS CONTROL COMPATIBLE** Use barcodes to scan for access to authorized areas

**EXPIRING** After a 1-day or 7-day use, a red bar pattern will appear on the badge, clearly indicating a guest's time is up to prevent badge reuse

**CUSTOMIZABLE**  
Add your logo or customize the expiring pattern that appears

# EXPIREBAND™ VISITOR WRISTBANDS

The Most Secure & Convenient Way to Identify Visitors

This patented PDC product brings expiring ink technology to a wristband for the first time.

**NON-TRANSFERABLE** Remains securely attached to visitor for duration of visit

**ULTIMATE CONVENIENCE** Comfortable, secure and won't end up stuck to your floors or walls

**ACCESS CONTROL COMPATIBLE** Use barcodes to scan for access to authorized areas

**THERMAL PRINTABLE** Compatible with PDC Certis® and other leading direct thermal printers

Dimensions: 9 3/4" x 1"

T8050

# BASIC VISITOR BADGES

Simple & Cost-Effective

Non-Expiring, adhesive and clip-on badges are easily printed and issued to your visitors for a simple solution.

**IDEAL FOR SHORT VISITS** Non-expiring solutions are recommended when your visitors are only on site for a short period of time

**LOW-COST** This simple, non-expiring solution ensures you keep costs at a minimum

**COLOR-CODING** Multiple colors available to use specific colors to indicate type of visitor or access levels

**COMPATIBLE** Thermal, inkjet or handwritten adhesive badges are available to be efficiently printed and issued using your technology of choice

# VISITOR MANAGEMENT SYSTEMS

Screening & Reporting for a Secure Campus

**TRACKING & REPORTING** Visibility and tracking for visitors and vendors when they're on location, as well as the ability to pull visitor reports to track trends

**WATCH LISTS** Cross reference visitors against patient-specific or national watch lists, such as the sex offender registry

**MANAGE EMERGENCIES** Know who is onsite during emergencies for effective emergency notification and alerts

**RESOURCE EFFICIENT** Save resources by pre-screening visitors and using self-registration kiosks

**HIPAA COMPLIANT** Interface with Epic, Cerner, MediTech and more in accordance with HIPAA regulations

**FLEXIBLE SOLUTIONS** We offer a wide variety of visitor software solutions depending on the size and security requirements of an organization

# PDC CERTIS® THERMAL PRINTERS

Print Visitor Badges in Seconds

**EFFICIENT** Quickly personalize visitor badges or wristbands with direct thermal technology — no ribbons or ink required

**FULLY COMPATIBLE** Compatible with your existing visitor management system

**RELIABLE & DISCREET** The printers are lightweight with a small footprint, but powerful and reliable for minimal downtime

**SUPPORT** The PDC Technical Team ensures printers are fully integrated and functional with visitor management systems. Includes loaner printer during repairs

# EMPLOYEE ID CREDENTIALS

Find the Perfect Match for Your Facility's Brand & Security Needs

**EASY TO SWITCH** We can exact-match the technology in your current cards or help you upgrade to a new card technology with better lead times and pricing

**FULL INTEGRATION** Cards are available with a variety of technology (standard, proximity or smart) to fully integrate with your access control and security systems

**VISUAL SECURITY** Further secure credentials with our visual security features including IDentiGuard™, HoloKote® and more

**INSTANT ROLE RECOGNITION** Quickly communicate provider roles at a glance with the use of Badge Buddies

**A SECURITY PARTNER** PDC can be your full solution provider, working with your IT and security teams for a fully integrated, hassle-free credential program

# MAGICARD® CARD PRINTERS

Print Secure Employee Credentials On Site

**FREE BADGING SOFTWARE** Presto card design software is free with the purchase of a Magicard printer, allowing you to easily design and print employee credentials

**INCLUDED SECURITY FEATURE** Free HoloKote® designs come standard with every Magicard printer; these patented visual security watermarks make it virtually impossible to counterfeit credentials

**SUPPORT & WARRANTIES** The PDC Technical Service Team helps organizations optimize card printers for efficient, worry-free production, while our warranties provide peace of mind

**ONE-STOP SHOP** PDC is a certified reseller of all major card printer brands and provides all printer ribbons and module add ons

# FULL CUSTOMIZATION & CARD PRINTING SERVICES

Let Us Handle Your Bulk Card Printing to Save You Time

Print variable information on site, while PDC bulk prints your full-color branding.

**FAST & EASY PRINTING** Free up internal resources and eliminate the cost of overhead, ink, toner and ribbon by letting us handle the card printing process

**HASSLE-FREE** Pre-branding or full-service card printing is available based on the needs of your organization

**UNIQUE SECURITY FEATURES** Sophisticated security features including holographic images, foiling, embedded imaging and more are available

**COMMUNICATE CRITICAL INFO** Customize cards to include crucial information such as reminders, values, codes or response tips

**CUSTOM MESSAGING AT STAFF'S FINGERTIPS** Emergency codes, contact cards or other information specific to your facility is easily accessible by staff when they need it most

# CUSTOM ID ACCESSORIES

Keep IDs Visible at All Times

**PROTECT CREDENTIALS** Extend the life of employee credentials with durable badge holders

**CONVENIENT ACCESS** Secure credentials and make them convenient to scan for timekeeping, keyless entry, record tracking and more with the use of badge reels

**EMPLOYEE SAFETY** Choose breakaway lanyards designed for employee safety and keep badges facing forward as required by some state regulations with twist-free badge reels

**BRANDING & MESSAGING** Fully customize ID accessories to match your brand, convey your message and give employees a sense of community

# CODE® BARCODE READERS

Barcode Scanning for Safer Patients, Visitors & Employees

**NEAR-ZERO MISS SCANNING** Save critical seconds by reading any barcode, in any condition on virtually anything — scanners won't slow workflows

**CODESHIELD® PLASTICS** Durable, disinfectant-ready plastics outlast "antibacterial plastics" by withstanding sanitation with healthcare-grade cleaners — chemicals won't cause yellowing, cracking or early failure

**GOVT-GRADE ENCRYPTION** Select CR2700 Barcode Readers are NIST FIPS 140-2 certified — get government-levels of data security and interoperability for your facility

**DATA PARSING** Use JavaScript programming to easily parse, sort and contextualize data — scanners scale with healthcare needs

**IN STOCK** Mission-critical barcode readers are ready to ship — stop waiting, start scanning

**FAST VERIFICATION** Scan employee ID badges, visitor badges and wristbands at key access points, and connect with your visitor and employee management systems
