

Find big opportunities where you least expect.

When standardizing products, don't overlook the small items like labels and wristbands that can add up quickly for big savings. Let **ValuePlus® from PDC** help you identify and implement contract compliance, vendor consolidation and savings opportunities.

We do the work. You get the savings.

Uncover hidden value.

ValuePlus® is a free program from PDC that helps hospitals reduce costs through standardization of identification products (labels and wristbands). Our dedicated team of analysts will use an extensive cross-reference database to identify cost savings on your behalf.

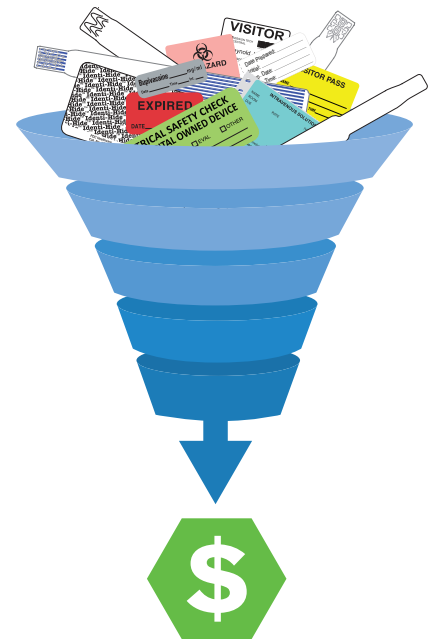

Don't stop short of maximizing your contract compliance, consolidation and savings opportunities. Many hospitals purchase several hundred types of labels and wristbands for multiple departments and sites. This results in redundancies, off-contract purchases and excessive suppliers, costing the organization tens or hundreds of thousands of dollars per year.

ValuePlus® Reduces Provider Costs

- Maximize GPO contract compliance
- Standardize product purchases
- Improve procurement efficiency
- Consolidate vendors
- Count on our team to cross-reference and analyze data

Who Benefits Most from ValuePlus®
