Streamline Lab Workflow with LIS Labels Designed for Leading Laboratory Information Systems

No matter the LIS and printers you use, we have the largest selection of compatible labels. Enhancing optimal workflow efficiencies, our robust LIS label line includes a variety of solutions for Sunquest, Cerner, MEDITECH, SoftLab, and others. Plus, our V-Notch Secondary Labels feature a patented design for use with BD Vacutainer® Plus Plastic Tubes for correct and aligned label placement every time.

As experts in labels and media, we'll help you choose the right products for your unique applications. Call us at 800.435.4242.

Accurately Match the Right Patient to the Right Blood with Securline® Bar Code Blood Bands

Positive patient identification is amplified through the use of bar coding which helps eliminate human error and misidentification. These wristbands meet the Joint Commission's National Patient Safety Goal for Blood Transfusions (NPSG.01.03.01) calls for a one-person verification process.

Timestrip® Blood Temp 10
Button-Activated Blood Temperature Indicator

Timestrip® Blood Temp 10
PRESS ⏻ FOR ASSURANCE

Simple Quality Assurance for Blood Temperature During Transportation and Storage

## Enhance Your Existing Quality Control Process

The Thirty Minute Rule ≠ temperature monitoring

Timestrip® Blood Temp 10 monitors real-time temperature of the blood

Press ⏻ for the easiest indicator

Easiest to Use
- Simple push-button activation
- Indicator requires no special conditioning prior to use
- Cost-effective monitoring

Quality Assurance
- Maintain quality control in blood transportation and storage
- Real-time data to make quick, safe decisions
- Peace of mind

Ensure Compliance
- Irreversible proof of meeting AABB Standards and the FDA's CFR 600.15(a) for monitoring temperature of whole blood during transportation and storage
- FDA 510(k) clearance

Application Is Easy as 1, 2, 3

1 Push the Button

Arming window

10°C breach window

Firmly squeeze the activation button until you feel a pop, then release.

2 Verify Activation

Dark green means activated

Arming window will change from yellow to dark green immediately. If not, go back to Step 1.
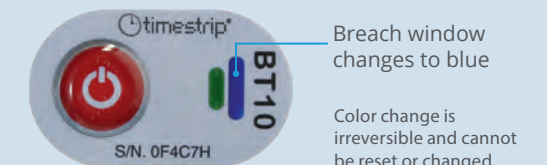

3 Apply to Blood Bag

Remove adhesive liner and adhere activated indicator to the lower third of blood bag.

At-a-Glance Temperature Monitoring

Upon Activation, Instantly Monitors Blood Temperature

Activated & monitoring

Clearly Indicates When Temperature Breaches 10°C

Breach window changes to blue

Color change is irreversible and cannot be reset or changed.

Product Number	Description	Dimensions	Temp Accuracy	UOM
BLOODTEMP10	Timestrip® 10 Blood Bag Temperature Indicator	1-1/4" x 3/4"	±0.5° C, ±1.0° F	100 per box
BLOODTEMP6	Timestrip® 6 Blood Bag Temperature Indicator	1-1/4" x 3/4"	±0.5° C, ±1.0° F	100 per box
