COST	\$	\$\$	\$\$\$
NOTABLE FEATURE	New design with improved clasp that is easier to close!	Longest lasting thermal wristband available with an easy-to-apply adhesive closure. It has an antimicrobial coating and comes as a single piece to make application quick and easy.	Pillow soft with unbeatable durability, ScanBand Soft is the softest patient ID band in the market to prevent skin cuts and provide comfort for even the most sensitive patients. Printed patient info lasts 30% longer compared to competitive brands.

**Please let your PDC representative know if you use Sato CG series printers or Notch sensing mode on your printers to ensure you receive compatible bands.*
